

Heat Policy – Braeside venue

Acro Kids heat policy is in place to ensure the safety of our students, coaches and families by making sure that we identify extreme heat situations and take the appropriate safety precautions.

Where the temperature is between 30-34 degrees, rest and hydration breaks will be increased in frequency.

- Drink bottles will be in the gym and available to students at all times
- Where necessary, breaks will be taken in air-conditioned areas
- Lesson plans will be modified to exclude overly strenuous activities
- If a student appears to be suffering from the heat, their coach will ensure that the student rests and is moved to an air-conditioned area. Ice packs, cold cloths, spray bottles can also be used to provide relief from heat.

The decision to cancel classes will be made based on the safety and best interest of our students.

The temperature will be determined from:

- www.bom.gov.au
- City observations
- Braeside location

Cancelled classes will be advised by **email** to families. Please ensure your contact details are up to date in our online portal.

Afternoon and evening classes

Where temperature is or exceeds 35 degrees at 2.30pm, all afternoon and evening classes will be cancelled on that day. If a cool change is expected, classes may still run. If the temperature hasn't reached 35 degrees but it is expected to continue rising, classes may be cancelled.

Morning and daytime classes

Where the temperature exceeds 32 degrees at 9am and the temperature is forecast to continue rising, morning and daytime classes will be cancelled.

Tuition policy

Refunds and credits are not provided for heat policy closures, but make-up classes are available. If more than one heat policy closure occurs in the same term, the second and subsequent classes will be credited.
